TOBACCO

South Carolina tobacco markets opened August 10 with the sales the first day indicating the largest crop in the history of the State. Most of the warehouses closed during the latter part of September; however, Mullins and Lake City kept open during October and the last final reports received were those for the month of October.

During 1937 season, South Carolina producers sold 101,352,469 pounds of the golden weed, an increase of 31,511,000 pounds over the 1936 sales and received gross financial returns amounting to \$21,112,829.88, a gain of \$7,222,641.36 over 1936.

Never before in the history of the State has as much as one hundred million pounds of tobacco been sold on the South Carolina markets and never before as much as \$21,000,000.00 been received by the producers. Naturally it has brought much stability to the Pee Dee section.

In spite of the large 1937 crop, tobacco sold at an average of 20.83 cents per hundred as against 19.88 cents in 1936, an average gain in price in 1937 over 1936 of 95 cents per hundred pounds.

The following table gives the name and location of the warehouses, the amount of tobacco sold each month by markets and the final table in this report shows the amount of tobacco sold during the season by each warehouse.
